## DETAILED ACTION

### *Response to Arguments*

1. Applicant's arguments with respect to claims 1-17 have been considered but are moot in view of the new ground(s) of rejection.

### *Claim Rejections - 35 USC § 102*

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

3. Claims 1-3 and 14-15 are rejected under 35 U.S.C. 102(e) as being anticipated by Bang et al. (USP. 6,771,681).

Regarding claims 1 and 14, Bang disclose a gain-clamped semiconductor optical amplifier in Fig. 3, comprising: a gain waveguide (350) for amplifying an optical signal input to the gain waveguide (Abstract); and a grating layer (320) having a first grating (330) on a portion of the grating layer (Fig. 3), the first grating being disposed at a first end portion (Fig. 3), wherein the gain waveguide (350) is disposed on the grating layer (320) in a direct contact with the first grating (330) (Fig. 3).

Regarding claims 2 and 15, Bang disclose that a second grating (340) disposed at a second end portion (Fig. 3).

Regarding claim 3, Bang disclose that a clad (380) laminated on the gain waveguide (Fig. 3).

***Allowable Subject Matter***

4. Claims 4-13 and 16-17 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
